LAUNCH OF THE HUMAN RIGHTS VIOLATIONS TRACKER

Tracking and documenting human rights violations in Uganda

As we continue to defend constitutionally guaranteed rights across a spectrum of issues without limitation based on ethnic, religious, or other group identity, political affiliation or sexual orientation, Chapter Four Uganda announces the launch of a violations tracker to document and track human rights violations in the country.

The tracker will be an online platform for information gathering, monitoring and archiving the trends and human rights violations visualized in a map of Uganda that highlights types of violations, details such as date of violation, location name, alleged perpetrator, right violated and summary of circumstances on the incident.

The tracker will be live at www.chapterfouruganda.com/hrt starting Friday morning at 10:00am.

Reach out to Chapter Four Uganda to report any violations through our different social media platforms, email us on info@chapterfouruganda.com or call on +256790916614

We invite you to follow and join the conversation online using the hashtag

#RightsTrackerUG
